To strengthen our team, we are looking for a GIS Specialist for our location in Hamilton, ON for a contract possible with possible renewal.

Job responsibility

- Identify ideal locations for wind in specific areas.
- Research in relation to activities for the designation of wind priority areas, regional plans, and land use plans
- Examination of a search area for critical planning criteria such as, among others, nature conservation areas, building law and monument protection
- Creation and management of maps relating to the identification of ideal locations for renewable energy development.

Your Profile

- Degree in the field of geography, landscape planning, civil engineering, or a corresponding education Ideally
- One to two years of professional experience as a GIS Specialist or similar position
- knowledge of project development and planning law for wind turbines desirable
- High quality communication and organizational skills
- Good computer skills, especially with QGIS
- First experience in the use of AUTOCAD desirable
- Familiar with Microsoft Office software

Our Benefits

- Flexible working time system
- Homeoffice possible
- Participation in the energy transition
- Technical equipment

About us

Prowind Inc. ("Prowind") is a renewable energy developer and operator focused on the development of renewable energy projects using wind and solar technologies. With many renewable energy projects currently in operation globally, Prowind has the expertise and experience to successfully develop and operate renewable energy projects around the world. The North American headquarters is in Hamilton, Ontario.

Our company values focus on building lasting relationships within the communities we operate. We look for development opportunities that allow for participation by community members such as ownership, community benefit programs or as customers for the renewable electricity generated.

Please send us your comprehensive application materials, including your **Compensation requirements** and **availability** to Carr Villabroza (cvillabroza@prowind.com). Please enter "GIS Specialist" as well as your name in the subject line of the e-mail.
